Thinking about coming with your team to JAM 2015? Here's why we think you should.

JAM

LEARN FROM THE BEST

We've invited world-class speakers from some of the hottest companies in town, including Google, TransferWise, SwiftKey, YPlan and many more. Get unprecedented insights into how they go about building ground-breaking products, and apply the learnings to yours.

REAL STORIES

As product designers ourselves, we've worked hard with our speakers to create relevant talks. This isn't just about sharing knowledge, but about real stories that will help you do things better. Dedicated Q&A sessions will allow you to ask any burning questions you have, and you'll even have the opportunity to meet the speakers during the breaks!

FIND YOUR NEXT HIRE

Our goal is to make JAM a truly social experience. This means plenty of opportunities to engage with some of the most interesting entrepreneurs, designers and developers in London. Find out how fellow product designers approach their craft, exchange ideas, and who knows - maybe your next recruit will be there?

NO DISRUPTIONS

We know you and your team are super busy building awesome things – so we decided to organise JAM on a Saturday, making it easy for everyone to get involved and be fully engaged without worrying about what's going on back at the office.

YOU DESERVE IT, RIGHT?

You've been going the extra mile for a while. JAM is about taking a step back, for one day, learn from amazing people, and go back to the office energised and inspired, with unique insights of how the best product companies around do their thing.

AWESOME VALUE FOR MONEY

Tickets include free lunch and unlimited tea and coffee. And what's more, every attendee gets access to exclusive discounts with some of the best product design tools and resources around, including Marvel App, Bohemian Sketch 3, Balsamiq and many more!
